Municipal Separate Storm Sewer System

February 2026 Edition

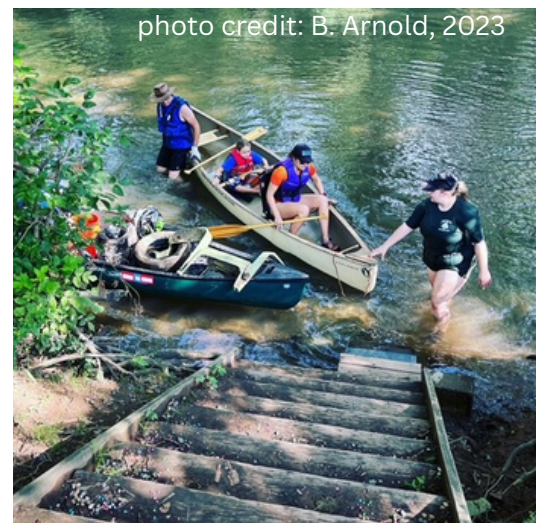

## Improvements at Creekwood Park

Creekwood Park, a passive park located along the Yellow Breeches Creek, underwent construction in the Fall of 2025 to improve the boat launch on the creek and provide accessibility to those who utilize the area. The park has a pathway linking the Allendale development to the Beacon Hill area of Lower Allen Township. This path travels along the Yellow Breeches Creek to Beacon Hill Boulevard for more than a mile. The walking path provides an excellent opportunity to enjoy serenity just steps away from the hustle and bustle of the suburbs.

## Access

Creekwood Park is located off Winding Way in the Allendale development. Parking is available onsite and the Cumberland County Water Trail labels the Creekwood Park as B9 on the map. For more information on the water trail and the map refer to the Cumberland County Water Trails webpage.

## Funding

Lower Allen Township was awarded grant funding for the Creekwood Park boat launch project. This funding allowed for increased accessibility through paving of the parking area, redesign of the boat launch along the Yellow Breeches Creek, and redesign of the access road owned by the Township.
