

Lower Allen Township's

Guide to MS4

Municipal Separate Storm Sewer System

October 2026 Edition

Issues Found and Fixed Using Stormwater Fees

Stormwater fees are used to address requirements for the MS4 permit issued by the Department of Environmental Protection as well as reduce flooding in areas, mitigate stormwater runoff, and televise, clean, and line pipes. Additionally, stormwater fees are also used for the replacement of failing infrastructure, like shown in the picture. When infrastructure gets to this degree of degradation, water does not pass through and issues could occur, such as sinkholes. Luckily, this pipe was found and replaced before further damage could occur.
