Municipal Separate Storm Sewer System

Municipal Separate Storm Sewer System

Age Group	Percentage
18-24	~10%
25-34	~35%
35-44	~25%
45-54	~20%
55-64	~15%
65-74	~10%
75-84	~5%
85+	~2%

In partnership with Yellow Breeches Watershed Association and Susquehanna Outfitters, Lower Allen Township is hosting a kayak safety training and stormwater information session. This training is funded by a grant from Susquehanna River Basin Commission. There are 3 opportunities to participate in the months of May and June. Participation is open to residents and non-residents and will include a food, all required materials, and a certificate of completion. What better way to spend a few hours than to be on the creek! Contact Barbara Arnold, Environmental Programs Manager at Lower Allen Township to register, barnold@latwp.org.
