New Addition to Recycling

Straws and lids are not recyclable. Please add these items to your trash container before recycling your to-go cups.

Penn Waste has updated their recycling acceptances to allow disposable cups. This update includes any disposable cup that is labeled a 1, 2, or 5 on the bottom. What does that mean for curbside recycling? This means that in addition to cartons, glass, aluminum cans, tin cans, newspaper, cardboard, and paperboard; residents may place to-go cups in their curbside collection carts. This could be from restaurants or the cups from picnics and parties. Summer is approaching and backyard picnics and pool parties will fill our weekends. Reduce your trash by tossing the plastic cups into the recycling carts!

Recycling Looks Different for the Future
