

RECYCLING NEWS

2026 vol. 7

Lower Allen Township

Littering Report:

A complaint was taken at the Township building regarding bottles on the road. A large number of travel size shampoo bottles were collected from the roadside along Lisburn Road. These would have made it to the Cedar Run after substantial rain the next day.

Staff Addresses Litter Complaint

Littering can occur through inadvertent actions. A recent litter complaint stated that “a box of travel bottles fell from a truck”. When staff went to investigate, bottles were found to be scattered on the side of the road. If you see litter, there are a few things you can do as a resident.

- 1.If you feel safe, consider picking up the litter and placing it in the trash.
- 2.If safety is a concern, contact Lower Allen Township for assistance in cleaning up the litter.
- 3.If anything is entering a stormdrain or waterway, immediately call the stormwater department to report it.

Recycling Looks Different for the Future
