

HELP HATS DECIDE EV CHARGING LOCATIONS

With the launch of the National Electric Vehicle Infrastructure (NEVI) program, PennDOT is now deploying EV charging stations in communities across PA.

As part of PennDOT's **Community Charging**

Program, the Harrisburg Area Transportation Study is conducting a survey to gather input from the public and stakeholders on where EV charging stations would be most beneficial in our region.

HATS staff will also host a virtual public information session on the NEVI program on **Wed., Nov. 12 at 6 PM.**

To participate in the survey or register for the information session, scan the QR code at right or visit **www.tcrpc-pa.org/nevi**.
